### ON BASE PUBLIC TELEPHONES

- Domestic calls within Japan, including Okinawa, can be placed using public telephones located throughout Navy bases. Calls can be made using coins or pre-paid calling cards, which can be purchased at a variety of on base and off-base locations.
- Overseas commercial calls may be placed from international telephone booths located throughout Navy bases. Calls from Sasebo may be placed via International Operator Direct Collect Call service (IODC). Calls from the Yokosuka area may be placed using the red KDDI 001 Direct phones. Use of a credit card or pre-paid telephone card is required.

### CALLING TOLL FREE NUMBERS

- To place toll free calls within Japan dial the domestic call access number (99), "0120" and the desired toll free telephone number.
- To place "1- 800" calls to CONUS, dial 99 1- 800- XXX- XXXX (Subject to Toll Charges)

**NOTE:** "1-800" numbers are only toll free when dialed from within the United States. The cost of the call from Japan to CONUS will be billed at the current international direct dialing rate. When making a "1-800" call the following recording will be heard: "Access to the 800 number you have dialed is not free of charge outside the United States. If answered, you will be charged international direct"

dialing rates for this call. If you do not want to proceed with this call, please hang up now." If you do not hang up after the above statement, your call will be connected to the "1-800" number and international toll charges will be incurred.

#### **PLACING CALLS VIA DSN**

To place a routine DSN call within the Pacific calling area, official subscribers and unofficial subscribers with authorized DSN access should dial the seven (7) digit number assigned. Excessive impact from unofficial telephone calls on the official DSN during times of real-world contingencies may result in a suspension of service for unofficial subscribers.

## **GENERAL INFORMATION**

The U.S. Forces telephone system in Japan links all military telephone exchanges in Japan, including Okinawa, by automatic direct dial. The system is interconnected to the Public Switched Telephone Network, as well as being integrated with the Defense Switched Network (DSN), a world-wide defense communications network.

The U.S. Forces telephone system in Japan is NOT SECURE and discussion of classified information on non-secure telephones is prohibited. ALL TELEPHONES ON A GOVERNMENT SYSTEM ARE SUBJECT TO MONITORING FOR COMMUNICATIONS SECURITY PURPOSES AT ANY TIME. Official government telephones are provided for the transmission of official information only. Use of a government non-secure telephone constitutes consent to communications security telephone monitoring in accordance with current regulations. It is the user's responsibility to protect classified or sensitive information being discussed over a telephone line by using secure equipment (STU, STE, etc.)

U.S. Naval Computer and Telecommunications Station Far East (NAVCOMTELSTA FAR EAST) provide telephone services for all Navy installations located throughout mainland Japan. These services may be classified as official (Class A), or unofficial (Class B-1 and B-2) depending on subscriber's mission or usage.

ATSUGI BASE COMMUNICATIONS OFFICE, located in Building 538, is responsible for the management and day-to-day operations of NSF Kamiseya and of Naval Air Facility Atsugi telecommunications systems.

SASEBO BASE COMMUNICATIONS OFFICE, located in building 1632 at main base, is responsible for the management and day-to-day operations of the telecommunications systems of Sasebo Main Base, Hario Village housing and all other surrounding remote sites.

YOKOSUKA BASE COMMUNICATIONS OFFICE, located in Building C-20, is responsible for the management and day-to-day operations of the telecommunications systems supporting Yokosuka, Ikego Housing Area, Negishi Housing Area, and all other outlying sites. BCO Yokosuka is also the management center for all BCO financial Operations.

#### **TELEPHONE SERVICES AVAILABLE:**

- A) Class A: Official telephones with access to the DSN and the commercial public network.
- B) Class B: Non-official telephones for use in quarters and by certain organizations located on base.
- C) Class C: Official telephones with on-base access only.

## **OFFICIAL (CLASS A) TELEPHONE SERVICES**

#### **AUTHORIZED DSN CALLS**

DSN calls through the Operator wherein capability is unavailable shall be provided in conjunction with a command sponsored authorization letter provided to Navy Far East DSN Operators. All commands must submit official letter with a list of all authorized DSN caller to Navy Far East DSN Operators. The letter has to be signed by Commanding Officer or Officer in Charge and authorized users should be listed alphabetically with their rank and last 4 of SSN.

It is the responsibility of the command to update Navy Far East DSN Operators of any changes on the list by submitting a new authorization letter.

### **WEB BILLING**

Official customers monthly bill can be accessed on the following website: <https://bco.nctsfe.navy.mil>. Monthly telephone bill certification can be done on the website. All Command Telephone Control Officers (TCO) should be familiar with web billing since that is the only way to verify and certify monthly telephone charges. Web billing demonstration is available for all TCO's at customer service located in the BCO Office, Yokosuka, every 15th of each month. TCO's are responsible to train personnel in their command about BCO Web Billing.

### **INSTALLATION, REMOVAL / RELOCATION OF TELEPHONES**

Installation, removal, or relocation of official telephones and associated wiring or equipment is prohibited unless done by telephone maintenance personnel, with an authorized job order. Requests for such work must be submitted via Telephone Service Request (TSR), and must be signed by the command's Telephone Control Officer. TSR's must be submitted to the servicing BCO AT LEAST 10 WORKING DAYS prior to the requested date of service. The request should be accompanied by a space floor plan providing details and description.

### **TELEPHONE DIRECTORY LISTING**

All base Commands or Support activities are responsible for reporting changes or corrections to be made on command/support activity listings of the telephone directory. Prompt reporting of required corrections or changes for these activities will be solicited every two (2) years. Listing corrections or changes must be submitted with a TSR by each command/activity Telephone Control Officer (TCO) and forwarded to the servicing BCO for inclusion in subsequent publications and updating existing directory records.

### **TROUBLE REPORTS**

All problems involving official telephone services should be reported to the Telephone Trouble Desk at extension 114. Report the problem, telephone number, your name and a contact telephone number. Commands or support activities experiencing loss of critical telephones after normal working hours should report the problem to the base telephone operator.

### **USE OF TELEPHONE EQUIPMENT**

Connecting a cordless telephone purchased in the United States to any telephone network in Japan is strictly prohibited. U.S. made cordless telephones use the same frequencies as the Japanese Public Safety activities. Interference with these frequencies may be subject to legal proceedings. Class A customer can purchase any available telephone equipment/instruments at BCO Office. In accordance with **HQ USFJ Instruction 700-2, 1 February 2003** Cordless telephones made for use in the United States and/or countries other than Japan will not be used on USFJ installations. Such telephones operate in a frequency range that could interfere with Japanese communications systems. Cordless telephones manufactured for use in Japan may be used on USFJ installations, IAW USCINCPACINST 2400.1F Joint Electromagnetic Spectrum Management Instruction.

### **MORAL AND WELFARE CALLS UNAVAILABILITY AND REMINDER**

Due to adequate commercial telephone service available in Japan, U.S. Naval installations do not meet the required criteria for moral and welfare calls. Use of the DSN to "Off - Net" at another station for the purpose of "personal business" is prohibited. "Toll skipping" is illegal. The Joint Chiefs of Staff Memorandum on Policy 151 sets specific criteria for stations authorized to request this use of DSN from the theater commander.

### **ABOUT DEFENSE SWITCHED NETWORK (DSN)**

DSN is the principle long haul voice communications network within the Defense Information System Network (DISN), providing unsecured direct dialing service worldwide through a system of government owned and leased automatic switching facilities. The purpose of DSN is to handle essential command control, operations, intelligence, logistic, diplomatic and administrative traffic.

## 1. DSN USAGE:

- A) Authorized for official communications only.
- B) Restricted as follows:
  - (a) Only those calls that are essential, requiring a timeliness that cannot be obtained by other means.
  - (b) The minimum time required to accomplish the official business and will not normally exceed 5 minutes.
  - (c) The use of a precedence level in consonance with the subject matter of the call as established in the Joint Uniform telephone Communications Precedence System.
  - (d) The use of graphic, facsimile or unsecured voice- data devices only when approved by the agencies or activities. Voice, data, facsimile and graphic service over DSN will not exceed a continuous transmission time of 18 minutes or a total transmission time of 1 hour during normal business hours.
- C) Unauthorized as follows:
  - (a) Calls within an installation, metropolitan area or those confined geographical areas where other existing government- provided local telephone service is adequate.
  - (b) Unofficial or personal calls.

**2. THE JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM** as directed for use by all authorized users of the voice communication facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls, which may be assigned the respective precedence. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize precedence higher than the circumstances require. (Authority JANAP 137 B)

### A) PRECEDENCE DESIGNATOR:

- a) **FLASH.** Telephone calls designated FLASH shall take precedence over and shall pre-empted calls designated ROUTINE, PRIORITY or IMMEDIATE. FLASH calls may be pre-empted by application of the FLASH OVERRIDE capability. FLASH calls will be handled as fast as possible. FLASH precedence is reserved for telephone calls pertaining to:

- (a) Command and control of Military forces essential to defense and retaliation.
- (b) Critical intelligence essential to national survival.
- (c) Conduct of diplomatic negotiations critical to the arresting or limiting of hostilities.
- (d) Dissemination of critical civil alert information essential to national survival.
- (e) Continuity of Federal Government functions essential to national survival.
- (f) Fulfillment of critical United States internal security functions essential to national survival.
- (g) Catastrophic events of national or international significance.
- (h) Situations to use flash precedence:
  - aa. Initial enemy contact have occurred.
  - bb. Recall or diversion of friendly aircraft about to bomb targets unexpectedly occupied by friendly forces or emergency action to prevent conflict between friendly forces.
  - cc. Extremely important and perishable intelligence.
  - dd. Major strategic decisions of urgency.
  - ee. Imminent large scale attacks.
- ff. National security information requiring the immediate attention of the President or the Secretary of State.

**b. IMMEDIATE.** Telephone calls designated IMMEDIATE shall take precedence over and shall pre-empt calls designated ROUTINE and PRIORITY. IMMEDIATE calls will be handled as fast as possible. IMMEDIATE precedence is reserved generally for telephone calls pertaining to:

- (a) Situations that will gravely affect the security of national and allied forces
- (b) Reconstitution of forces in post attack period.
- (c) Intelligence essential to national security.
- (d) Conduct of diplomatic negotiations to reduce or limit the threat of war.
- (e) Implementation of Federal Government actions essential to national survival.
- (f) Situations that will gravely affect the internal security of the United States
- (g) Civil defense actions concerning direction of our population and their survival.
- (h) Disasters or events of extensive seriousness having an immediate and terminal effect on the welfare of the population
- (i) Vital information having an immediate effect on aircraft, spacecraft or missile operations.
- (j) Situations to use immediate precedence:
  - aa. Amplifying information on initial enemy contact.
  - bb. An Enemy counter attack, request for, or cancellation of, additional support is needed.

- cc. Unusual major movement of foreign military forces in time of peace or strained relations.
  - dd. Commitment of a reserve force to attack.
  - ee. The Special weapons logistical support when necessary to sustain operations.
  - ff. Widespread civil disturbance does exist.
  - gg. Distress assistance.
  - hh. To disseminate urgent information, concerning the launch, operation or recovery of spacecraft or missiles.
  - (k) Aircraft movement information (e.g. calls pertaining to requests for news of aircraft in flight plans, cancellation calls to prevent unnecessary search/rescue action).
  - (l) Damage assessment and remaining capability.
  - (m) Assistance to foreign countries in time of natural disaster.
  - (n) Coordination and direction of warnings, reports and implementation of natural disaster programs and related operations.
  - (o) Critical alerting information to or from Air Traffic Control Centers necessary to permit recovery and diversion of military and civil aircraft in flight.
  - (p) Emergency actions concerning the procurement or delivery of supplies or services urgently needed to sustain operations in support of critical national security requirements.
- b) PRIORITY.** Telephone calls designated PRIORITY shall take precedence over and shall pre-empted calls designated ROUTINE. PRIORITY calls will be handled in an expeditious manner. PRIORITY precedence is generally reserved for telephone calls requiring expeditious action by called parties and/or furnishing essential information for impending conduct or where fire or air support of government operations is involved. Situations to use Priority precedence:
- (a) Information on locations where attack is impending or where fire or air support will soon is required.
  - (b) Air-ground integrated operations.
  - (c) Important intelligence.
  - (d) Important information concerning the launch, operation or recovery of spacecraft or missiles.
  - (e) Movement of naval air and ground forces.
  - (f) Coordination between government agencies concerning the performance of emergency preparedness functions.
  - (g) Critical logistic functions, provision of critical public utility services and administrative military support functions.
  - (h) Accomplishing tasks necessary to insure critical damage control functions.
  - (i) Continuity of critical Government functions.
  - (j) Arranging minimum transportation for accomplishing the aforesaid functions.
  - (k) Continuing or establishing our more important financial, economic, health, and safety activities and producing, procuring and distributing food materials and supplies which are considered necessary to the immediate support of a war effort, the national defense, or for expediting the means of meeting the effects of natural disasters.

c) **ROUTINE.** Telephone calls designated ROUTINE will be handled in an expeditious manner and in the order placed. ROUTINE designation applies to those OFFICIAL government communications requiring rapid transmission by telephonic means but do not require preferential handling. CALLS NOT MEETING THE ABOVE CRITERIA ARE ROUTINE CALLS.

### **3. CLASS A (Official) DSN DIALING PROCEDURES ACCORDING TO PRECEDENCE FROM JAPAN:**

- A) ROUTINE JAPAN OR PACIFIC CALLS - Dial the 7 digit DSN number.
- B) ROUTINE CONUS - Dial 94 + 312 + 7 digit DSN number.
- C) PRIORITY PACIFIC - Dial 93 + 7 digit DSN number.
- D) PRIORITY CONUS - Dial 93 + 312 + 7 digit DSN number.
- E) IMMEDIATE PACIFIC - Dial 92 + 7 digit DSN number.
- F) IMMEDIATE CONUS - Dial 92 + 312 + 7 digit DSN number.

\*\*\*\*DSN Area Code Frequently asked: Alaska-317 Europe-314 Middle East-318

### **4. DSN USER ASSISTANCE:**

Call, conferencing and directory assistance for DSN users are provided by DSN Operators at 240-1110.

### **5. DSN USER INSTRUCTIONS FOR EUROPEAN COMMANDS:**

For DSN access to European Commands, you must dial the Defense Information Systems Network (DISN) located in Maryland, at DSN 312-231-1311. The Defense Information Systems Network (DISN) Operator will connect you to the requested number.

## **UNOFFICIAL (CLASS B) TELEPHONE SERVICES**

Unofficial telephone service is provided to military housing occupants and other unofficial subscribers to support telecommunication needs with local and long distance capabilities. **All such services are provided by the government on a reimbursable basis and is considered a privilege, not a right.** Unrestricted, unofficial, local and overseas call is available to unofficial telephone subscribers via direct dial with their telephone lines using an access code.

#### **Unofficial telephones are divided into two categories:**

**Class B-1.** Telephone installed in government- owned or government- leased quarters for family or personal use.

**Class B-2.** Telephone installed for the use of community service or other private business firms operating on behalf of the Department of Defense (DOD) within or in the immediate vicinity of a DOD installation.

The BCO OFFICES are open from 0800 to 1600, Monday through Friday, excluding holidays and are the sole source of information concerning unofficial telephone account policies and procedures. All trouble calls, requests for service, and inquiries concerning the content or accuracy of bills shall be directed to the BCO offices.

Inquiries concerning billing, disconnection or suspended services will be handle only during regular working hours. Disconnected service will not be reconnected after business hours or on weekends and holidays.

#### **INSTALLATION, REMOVAL / RELOCATION OF TELEPHONES**

Unofficial telephone subscribers are not authorized to install, remove or relocate government owned telephones and associated wiring

or equipment. If quarters are equipped with modular telephone jacks, residents may install personally owned telephone instruments. Any work request must be applied in person by filling out a TSR form with proper documentation. It is the responsibility of the customers to provide their own telephone instruments.

When initial start up of unofficial telephone service is desired, prospective customers will fill out an unofficial Telephone Service Request (TSR) form at the BCO office with proper documentation. This form is a binding contract between the user and the U.S. Government and serves as consent form for pay garnishment in the event an account becomes delinquent.

### **TELEPHONE DIRECTORY LISTING**

Option is available to all military and civilian sponsors, residing in either government quarters or in base housing, to be listed on the personnel section of the telephone directory. Due to Force Protection Guidelines, only Last name, First name, Middle initial and telephone number will be published.

### **TROUBLE REPORTS**

Unofficial subscribers experiencing problems should report to trouble desk by dialing 114 or call operator after business hours as soon as possible. Trouble within the telephone switch will be isolated and corrected as soon as possible.

Should the repairs require dispatching a telephone repairman, trouble will be scheduled by next business day. If the trouble is isolated to negligence of customer owned equipment and a customer, request for a repairman to be called out from home to complete the repair, all labor (after normal working hours) and material costs will be billed to the customer.

After reporting a telephone line problem, unofficial subscribers experiencing a technical interruption of telephone service due to line failure in excess of five consecutive days will be credited on their next month's bill on a prorated basis. It is the subscribers responsibility to substantiate the interrupted service by immediately notifying the Telephone Trouble Desk and obtaining a trouble call number.

Malicious damage or breakage of government telephone equipment in a residence may result loss of telephone privileges. Malicious damage or breakage is punishable under the Uniform Code of Military Justice and any repair costs will be paid by the subscriber.

### **CALLER ORIGINATED TRACE (COT) OR MALICIOUS CALL TRACE**

This is now available. This function allows the receiving party to originate a trace on prank or threatening calls. When the called party activates this function a printout of the caller's telephone number, date and time of the call are recorded in the Base Communications Office (BCO). If you receive a threatening or malicious call, activate this feature by hanging up the phone, pick up the receiver again and immediately dial \*57, then hang up. Then place a call to Security to report the call and inform them that the trace will be on file at the BCO. The BCO will only release the information to Security or NCIS. The BCO cannot release the trace information to individual customers. Any person making malicious call over DSN facilities will be prosecuted to the full extent of the law.

### **MONTHLY BILLING AND TELEPHONE PAYMENT**

All the information needed to charge for local and international long distance calls is recorded electronically and is processed to create the subscribers' monthly telephone bill.

- A) The monthly service charge for unofficial telephone service is set by the Department of Defense. The billing period is from the first to the last day of the month. Billed the following month.
- B) Monthly bills, (include basic charges, other services, local and international toll charges), are prepared by the BCO no later than the 12th of each month and mailed to customers. The bills must be paid in full by the 2nd of each month following the print date. If the bill is not received by the 15th, contact the BCO Customer Service at your area. Unofficial (Class B) customers are responsible on their payment of their telephone charges even if written statement was not received.
- C) Community Bank is the sole collection point for all fees and bills associated with unofficial telephone accounts billed by BCO office. Payments may be made in person at the bank, Monday through Thursday between the hours of 0900 and 1500 or from 0900 to 1700 on Friday and paydays. Partial payments will not be accepted.

D) Money order, personal check or certified check must be made payable to "U.S. Treasury" to use for telephone payments. Use below address in mailing payments for Yokosuka and Atsugi areas.

COMMANDING OFFICER  
NCTSFE  
YOKOSUKA BCO CODE N24  
PSC 473 BOX 104  
FPO AP 96349-0104

E) Use below address in mailing payment for Sasebo area:

Community Bank  
PSC 476 BOX 50  
FPO AP 96322-0050

G) Send all mail payments via MPS. Do not mail cash payment.

7. Once an account becomes delinquent, telephone service will be downgraded to emergency access only, a delinquency letter will be mailed to subscriber's command and a final bill will be issued. Telephone service will be restored only after subscriber has paid the delinquent final bill in full and then, filled out a TSR for reconnection. A reconnection service charge of \$5.00 will apply. Failure to receive bills through mail distribution is not considered a valid reason for delinquency.

8. If a check is returned due to "Non Sufficient Funds" (NSF) the following applies: The first business day following notification, the customer's telephone service will be downgraded for "Emergency Access Only". The subscriber's account will then be charged the amount of the returned check, plus an additional \$10.00 administrative fee. The customer's final bill and written notification of service downgrade will be mailed, or may be picked up from the servicing BCO office.

Prior to resumption of service, the subscriber must remit the entire amount of the final telephone bill by money order or cash (Community Bank only). If paying cash, the customer must bring the receipt to the servicing BCO office.

After all payments are made, customer's can then request a reconnection of service. All reconnection fees will apply. If the BCO receives a second returned check from the same customer account, BCO will downgrade customer's telephone service to "Emergency Access Only" the following day, the customer's command will be notified and the customer will not be allowed service beyond "emergency access only" for the remainder of their current tour. The customer's account will also be inserted into the normal Delinquency disconnection (DQ) process. Reconnection of service can only be accomplished per request of the customer's Commanding Officer and by remittance of all debits owed to date.

9. Unofficial subscribers will have their service downgraded to "Emergency Access Only", if history of delinquency develops.

### **SUSPENSION OF TELEPHONE SERVICE**

Subscribers have the option to have their telephone service suspended during the period of time they are on leave, emergency leave or TAD, providing it is for a period of 30 days or more. A subscriber wishing to take advantage of this service must first pay all outstanding bills in full. Subscribers should then fill out a TSR available at the BCO office, at least two (2) working days prior to disconnection date. Subscriber will only pay 25% of the basic monthly fee for the 30 days suspended service and pro-rated days with less than 30 days suspended service. To restore the suspended service, subscriber's need to pay all current bills due and request for reconnection.

### **TERMINATION OF SERVICE**

Subscribers vacating quarters and leaving the area may request termination of telephone service by submitting a TSR and proper documents required, two (2) business days prior the termination date. Final bill will be scheduled and processed depending on the termination date. Payments will be accepted by check, bank draft, or money order at BCO office. Cash payment can be done at Community bank with a copy of final bill. Subscribers must attach a copy of their paid final telephone bill upon checking out at BCO office. All commands are encourage to ensure that the BCO is included on their checkout sheets.

Typhoons can be dangerous killers. Learning the typhoon warning messages and planning ahead can reduce the chances of injury or major property damage.

Typhoon season for Japan is June through September, however typhoons have been known to develop as early as May and as late as December.

The joint U.S. Navy and Air Force Typhoon Warning center in Guam, provide tropical cyclone warnings to the U.S. military agencies in Japan. Upon receipt of these warnings, the Commander, U.S. Forces Japan/5 AF will disseminate Tropical Cyclone Conditions of Readiness or "CORS" to the Kanto Plain. CORS simply indicate how soon we can expect the forces of the storm to affect this area.

When a typhoon threatens Kanto Plain area, stay tuned to AFN and AFN Radio (Eagle 810) for local conditions and information. For weather forecast information call 225-4181.

### **During a Typhoon Watch**

Listen to a battery-operated radio or television for typhoon progress reports.

Check emergency supplies.

Fuel car.

Bring in outdoor objects such as lawn furniture, toys, and garden tools and anchor objects that cannot be brought inside.

Secure buildings by closing and boarding up windows.

Remove outside antennas.

Turn refrigerator and freezer to coldest settings. Open only when absolutely necessary and close quickly.

Store drinking water in jugs, bottles, and cooking utensils.

Review evacuation plan.

Drive only if absolutely necessary.

NOTE: DO NOT TAPE WINDOWS

### **During a Typhoon Warning**

Listen constantly to a battery-operated radio or television for official instruction.

Store valuables and personal papers in waterproof container on the highest level of your home.

Do not use elevators in case of power outage.

Open front and back windows slightly to relieve pressure inside of home.

Close drapes and blinds to protect injury from broken glass.

Stay inside, away from windows, and glass doors.

Keep a supply of flashlights and extra batteries handy. Avoid open flames, such as candles and kerosene lamps, as a source of lights.

If power is lost, turn off major appliances to reduce power "surge" when electricity is restored.

Use telephone only for emergency calls.

When CORS are announced, individuals should SHELTER IN PLACE. The Wing Commander will announce via the Commanders channel which Natural Disaster shelters have been opened. The Natural Disaster shelters are listed below. If you go to a shelter, stay there until informed by local authorities that it is safe to leave.

## **EARTHQUAKE SAFETY RULES**

When an earthquake strikes your area, the "solid" earth moves like the deck of a ship. What you do during and immediately after the shaking makes life-and-death differences for you, your family, and your neighbors. These rules will help you survive.

### **During the Shaking**

1. Do not panic. The motion is frightening but, unless it shakes something down on top of you, it is harmless. Keep calm and ride it out.
2. If it catches you indoors, stay indoors. Take cover under a desk, table, bench, doorway, hall, or against inside walls. Try to get in a room with the least window space.
3. Do not use candles, matches, or other open flames during or after the shaking. Put out fires quickly.
4. If the earthquake catches you outside, move away from buildings and utility wires. Once in the open, lie on the ground and stay there until the shaking stops.

5. Do not run through or near buildings. The greatest danger from falling debris is just outside doorways and close to outer walls.
6. If you are in a moving car, stop as quickly as safety permits and lie on the floor. A car is an excellent seismometer and jiggles fearlessly on its springs during an earthquake; but it is a good place to stay until the shaking stops.

### **After the Shaking**

1. Visually check your utilities, but don't turn them on. Earth movement may have cracked water, gas, and electrical conduits.
2. If you smell gas, open windows and shut off the main valve. Leave the building and report gas leakage to authorities. Do not reenter the house until a utility official says it is safe.
3. If water pipes are damaged, shut off the supply at the main valve.
4. If electrical wiring is shorting out, shut off current at the main meter box.
5. Turn on your radio to get the latest emergency bulletins from FEN.
6. Stay off the telephone - except to report an emergency.
7. Do not go sightseeing.
8. Stay out of severely damaged buildings; aftershocks can cause them to fall.

## **RECOMMENDED EMERGENCY SUPPLIES**

Review the checklist below.

### **Water**

- 1 gal of bottled water per person per day for 3 days min. (2qts for drinking, two qts for each person in your household for food preparation/sanitation) Children, nursing mothers, ill people will need more. Don't forget your pets' needs, too.

### **Sanitation**
